Chetna Singh

Full Stack / Web Developer | MERN Stack | Responsive Web Applications
Phagwara, Punjab, India | singhchetna0955@gmail.com | +91-9925412847 | GitHub | LinkedIn

Education

Master of Computer Application (MCA) **Aug 2024 – Present**
Lovely Professional University Phagwara, Punjab
Bachelor of Computer Application (BCA) **Nov 2021 – Jun 2024**
Shrinath Ji College Varkund, Daman

Experience

- **Technical Team Member – com.bot** Jun 2026 – Jul 2026
  - Handled customer queries and provided timely technical support, helping resolve issues and maintain customer satisfaction.
  - Developed and optimized automated workflows to streamline operations and reduce manual intervention.
  - Collaborated with cross-functional teams to identify process gaps and implement workflow improvements.
  - Documented processes, maintained knowledge-base articles, and contributed to internal team training.

Projects

- **Learn Bridge – Full Stack Learning Platform** *React.js, Node.js, Express.js, MongoDB*
  - Developed a MERN-based learning platform with features for user connections, learning progress tracking, and blog publishing.
  - Built study-group functionality that enables users to create and join groups for collaborative learning.
  - Implemented core full-stack features including authentication, content sharing, and group collaboration.
- **Multiuser Chat App – Real-Time Chat Application** *Java, Swing*
  - Developed a Java Swing chat application supporting real-time multiuser messaging without requiring users to share personal data.
- **Automation Testing – Myntra** *Selenium IDE*
  - Tested e-commerce workflows including login, search, and product navigation using Selenium IDE.
  - Maintained testing documentation, including test plans, bug reports, test summaries, and schedules.
- **Live Streaming Platform** *HTML, CSS, JavaScript, PHP, MySQL*
  - Developed a streaming platform with smart search, continue-watching functionality, and personalized dashboards.
  - Created a hybrid recommendation system using watch history, genre preferences, and trending content.

Technical Skills

Languages: C, C++, Java, JavaScript
Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS, Figma, Responsive Design
Backend: Node.js, Express.js, REST APIs, PHP
Databases: MongoDB, MySQL
Tools / Platforms: Git, GitHub, Firebase, VS Code, Linux (Red Hat), Cisco Packet Tracer
Testing / Concepts: Selenium IDE, Agile Methodology, SDLC, OOP, DBMS

Achievements & Certifications

Responsive Web Design – freeCodeCamp (July 2025)
AI For Techies – Be10x (December 2024)
Object Oriented Programming using C++ – Lovely Professional University (November 2024)
